Crochet Baby Booties

Croby PATTERNS

HI LOVELY CROCHETER!

In front of you is one of my patterns, created from pure love. I love to crochet. I started a few years ago. It was a love on the first sight. Since than I bought tons of books, read millions of blogs and I just can't stop. My crochet love are crochet baby booties, baby hats and baby toys. Actually everything related to babies you can crochet. At first I was following the patterns from the books and magazines, but I added a touch of my love to all of them at the end. Soon after that I started creating crochet patterns for myself, for my own library.

Not long ago the Etsy and Ravelry store was born where you can find all my patterns. All of them are like this one in your hand, photo tutorials with pictures for almost each row.

This pattern is property of Croby Patterns and is for your personal use only. You can not modify, sell or share this pattern. You can sell finished items made from this pattern, but please mention that the item is made using a Croby pattern.
